CRYPTO TRADING

Welcome to Exor – your gateway to a world where the potential of crypto trading becomes your reality.

- Exor Company has been a trailblazer in the realm of cryptocurrency trading since 2012. we have evolved into a powerhouse that not only navigates the complexities of crypto trading but excels in it.
- We have seamlessly integrated Artificial Intelligence (AI) and advanced trading bots into our methodology. These intelligent systems are finely tuned to decipher intricate market patterns and trends.
- By leveraging sophisticated algorithms and real-time data analysis, our AI-powered bots execute trades with precision and speed, outperforming conventional methods. This integration empowers us to not only lead the market but consistently achieve profitable outcomes for our clients.
- Choosing Exor Company means embarking on a journey toward unlocking the benefits of crypto trading. Embrace financial autonomy through decentralized currencies, transcending traditional limitations.
- Join us in a trading environment where innovation is the norm, and profitability is the outcome. Exor empower you to navigate the complexities of the crypto market with confidence.

FOREX TRADING

- At Exor Company, we specialize in offering traders the opportunity to engage in Forex trading within the world's largest and most liquid financial market.
- The foreign exchange (FX) market presents an expansive landscape, providing traders with the chance to participate in currency trading from all corners of the globe. Among these currency pairs, there are certain ones that hold significant sway in the FX market, commonly referred to as the 'majors'.
- This market is renowned for its excitement and fast-paced nature, operating 24/6 as the largest global market and boasting remarkable liquidity. This liquidity empowers traders to execute instant buy and sell orders, minimizing the risk of becoming trapped in a trade.
- Our platform is dedicated to furnishing traders with the essential tools and resources required to effectively manage risk and make well-informed trading choices.

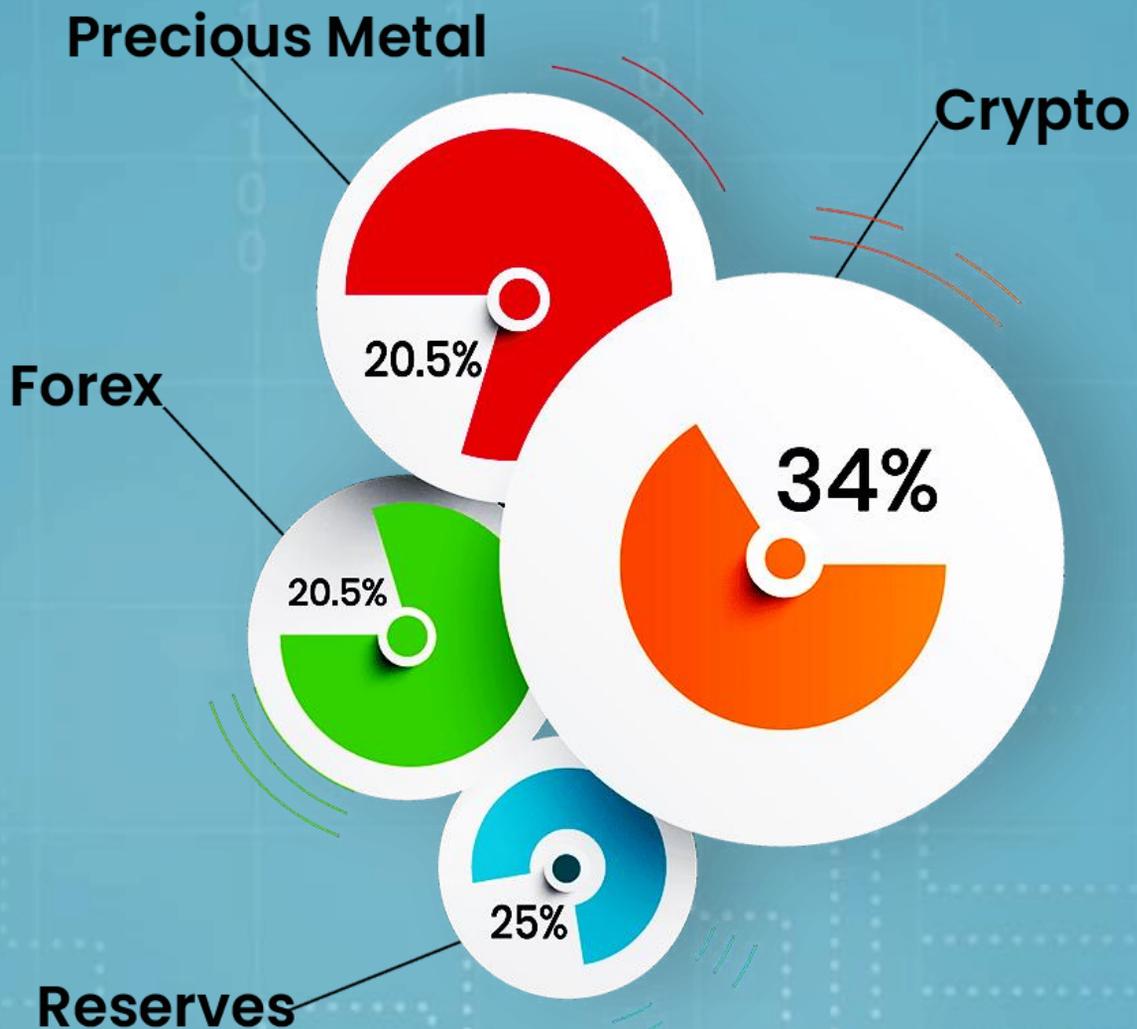

PRECIOUS METALS

- At Exor Company, we hold a profound appreciation for the inherent worth of these metals and the boundless potential they present to investment portfolios. Therefore, offering our esteemed clients a gateway to a domain marked by guaranteed growth and enhanced security.
- Exor Company's AI technology is now turning its expertise towards the world of precious metals after demonstrating its prowess in the cryptocurrency and forex markets.
- Our skilled traders create strategies that take advantage of these metals' untapped potential in seamless collaboration with AI-driven insights, fueled by their vast industry knowledge.
- Our debut into the trade of precious metals easily carries on the heritage of Exor Company, which is one of quick yet stable growth.
- We ensure our clients growth that is not just feasible but assured as we saw the value of these metals increasing from the very beginning.
- Our persistent dedication to leveraging technology, integrating it with tried-and-true trading processes, and vigilantly monitoring market movements guarantees that our clients can confidently traverse the complex world of precious metal trading.

REFERRAL INCOME

An Exor participant has the potential to achieve daily returns ranging from 1.5% to 2.2%, depending on the chosen investment plan.

- Exor Company offers upto 8% Referral commission to maintain the effectiveness and efficiency in its overall experience.

***NOTE:** Your account must be activated with a business plan in order to receive Referral commission.

Binary Income

- Income you can earn by matching your Left and Right business is referred to binary commission.
- Revenue from the Exor Binary network is generated through the use of a binary tree. A binary setup is a compensation plan that has two branches (left and right) or sub-trees under each manifold, forming what is called a binary tree.
- Activating a personal account and 2 direct accounts under you, one left and one right are essential for claiming your binary income. Doing such will offer you up to 10% income of your binary matching amount.

CAPPING

- Binary capping represents the highest threshold for the binary commission that can be earned within a single day under the respective plan.

REWARDS

- The Exor company offers you a wide range of tangible and intangible rewards, such as special gifts, world trips, recognition and much more, in recognition of your service, effort or achievement.
- This allows our clients to increase their potential as the rewards are earned on top of regular return.

WALLET DETAILS

1. CASH WALLET

A cash wallet is where you put your money to buy investment plans for yourself or others.

2. TRADE WALLET

The trade wallet is where you receive the profits from your investment plans.

3. BONUS WALLET

The bonus wallet is where you get the money from referrals, binary income, and rewards.

4. EXOR WALLET

The Exor wallet is where you collect money from internal transfers. You can use it to reinvest or send money to another user's Exor wallet.
